Mr. E. R. Skinnarland
200 Areas Section Manager
Nuclear Waste Program
State of Washington
Department of Ecology
1315 West 4th Avenue
Kennewick, Washington 99336-6018

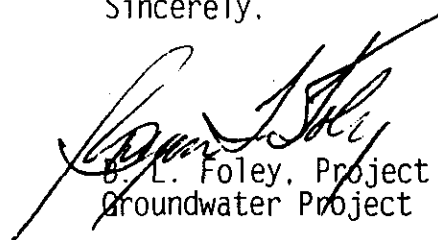

Dear Mr. Skinnarland:

TRANSMITTAL OF BHI-01115, REV. 0, EVALUATION OF THE SOIL GAS SURVEY AT THE
NONRADIOACTIVE DANGEROUS WASTE LANDFILL (NRDWL)

Attached is a copy of the subject document for your information. Three copies of this report were informally transmitted to Mr. Shri Mohan, of your office, on October 3, 1997. The report summarizes the results of a soil gas study performed at the NRDWL in August and September 1997. The U.S. Department of Energy, Richland Operations Office believes these results do not merit changing the current priorities for NRDWL as described in the Waste Site Grouping Report for 200 Area Soil Investigations (DOE/RL-96-81, Rev. 0).

If you have a questions, please contact me at 376-7087.

Sincerely,

B. L. Foley, Project Manager
Groundwater Project
